TRIVIA QUESTION - February's question:

Q. The Chevrolet Corvette has been made continuously sine 1953, Except for one year. What year was skipped and why?

A. 1983. In 1982, Chevrolet worked feverishly to put a new Vette into production, but it wasn't ready in time for the new models in September. So the '82 model was continued until Spring when the all 1984 C4 was introduced.

This month's question: In the movie "Rainman", what year and make of car did Tom Cruise inherit from his father? Bonus question: What make of car was he trying to import?

HELP WANTED - We still need your articles, tips and suggestions for upcoming issues. So if you have an idea, write it down and send it in. You can e-mail me at dch99@earthlink.net.

EPILOG - Will wrap it up for now. See you at the meeting, meanwhile "Keep on Building".
