**FEBRUARY, 2008**

**NUTS & BOLTS** Hello fellow glue sniffers. Welcome to another edition of Auto Modelers Journal. Our January meeting went well and attendance was good. The minutes of the December meeting were read and our treasury has \$133.26 in it. We donated \$50 to the grange.

As those who attended the meeting know, the January newsletter failed to meet modern technology. (My E-mail was broken). It is now on the web site if you want to read it.

Stan and Scott reported on an "emergency" model car show held in Albany on January 5. It was held as a charity to raise money.

We made final decisions on the Spring show. Prices are \$5 for first 3 models, \$1 for each additional model. Tables are \$10.

#### **COMING UP**

Our spring show is only a month away. It will be held on Saturday, March 15, 2008 at the club house. Our theme will be anything GM in honor of General Motor's 100 anniversary. Vendors welcome. Applications available on the web site. We also need suggestions for other activities to do at the show.

## **TRIVIA QUESTION**

**Last months question:Q.** In what year did the 500,000th Chevrolet Corvette come off the assembly line?**A.** 1977.

**This month's question:** In April,1964, Ford introduced the new Mustang. They weren't sure how well it would sell, but hoped to sell 100,000 cars. How many did they actually sell? **Bonus question:** Why was Ford able to keep the price low?

## **HELP WANTED**

## **EPILOG**

Will wrap it up for now. See you at the next meeting, meanwhile "Keep on Building".
